

PRINCIPLES REGARDING THE PREPARATION OF THE RECTOR'S LIST

1. The rector's list consists of regular students.
2. The students in the rector's list must have not interrupted their education except registration freeze.
3. The rector's list includes 14 students with the highest general mean score as of the 7th semester.
4. LYS, DGS and Foreign Students in the 7th semester and of the internal transfer students, those who have applied for the 3rd semester and are in the 9th semester, who have applied for the 5th semester and are in the 11th semester are deemed to be regular students.
5. The ranking of the rector's list is determined according to the general mean score consisting of their final score entries.
6. The semester score averages are retrospectively taken into consideration in case multiple students with equal general mean score during the determination of the student at the 14th position.
7. Changes to the general mean score after the final score entry will not affect the ranking of the Rector's List. (late acquisition of the Erasmus program course scores, course replacement, make-up exam, material mistake, I scores etc.)
8. Dual Major Branch Program students are not included into the ranking in the Rector's List.
9. Undergraduate program students graduated in the 7th are taken into the ranking.
