Important:

Students are responsible for conducting their course registration processes for the 2023-2024 Academic Year Spring Semester in accordance with the current Izmir Institute of Technology regulations, including the IZTECH Student Registration and Admission Procedures Regulation and the IZTECH Graduate Education and Instruction Regulation. Students will be personally responsible for course selections not made in accordance with the specified regulations.

Advisor's approval and Class Adding-Dropping procedures are to be completed with the advisors.

In the case of adding a new course, the tuition fee for that will be paid on 27-28 February 2024. If you drop any of these courses, you should write a petition to the secretary of the department.

To renew the registration, Tuition Fee must be paid, Classes must be selected and advisor's approval must be obtained. The students are responsible for all these procedures. If any of these procedures is missing, registration can not be completed.

Following registration, the required documents related to military service are transferred to the Ministry of Defence through YÖKSİS, the institute website. Since August 27, 2018 the matters related to military service has not been looked into by the Student Affairs Office. Students are to carry out their military service matters on e-devlet or at military service office and if there is a problem, Student Affairs Office is to be informed.
