

**2025-2026 ACADEMIC YEAR SPRING SEMESTER**  
**Registration Renewal Announcement for Graduate Students**  
**(Except II. Education Non-Thesis Master's Programs)**

**Important**

- To renew the registration; If any, the tuition fee or tuition fee must be paid, the course selection process must be made and the advisor's approval must be obtained. Students are responsible for the entire registration renewal process. A student who misses one of these transactions is considered unregistered.
- Since your contribution payments will be transferred from the bank to ÖBS electronically, receipts will not be delivered to the Registrar's Office.
- Students enrolled in the Scientific Preparation Program / Foreign Language Preparatory Class will not perform course registration procedures.
- Research assistants at state higher education institutions who are not enrolled in a second higher education program and who are pursuing graduate studies in regular (daytime) programs are exempt from paying tuition/semester fees during their period of study. Research assistants employed at state universities other than our Institute will also be exempt from paying tuition fees provided that they submit official documentation proving their status by 9 February 2026.
- Students who are relatives of martyrs or veterans are exempt from paying tuition/semester fees during the program period, provided that they document their status with a "Certificate of Entitlement" obtained from the Social Security Institution (SGK). Students who fail to submit the relevant document at the time of registration or registration renewal, despite being eligible, will be refunded the amount paid once the required document is submitted.
- Advisor Approval and Course Add-Removal procedures will be carried out together with the advisor.
- Students who repeat themselves in the preparatory class pay a contribution fee.
- Students who cannot graduate within the normal education period pay a contribution.
- Foreign students (except for scholarship students) pay a contribution.
- Regardless of whether they exceed the normal education period or not, students who enroll in a second higher education program (excluding double major programs) while enrolled in a higher education program pay a contribution.
